Date of birth: 09-17-1997

Summary

Web developer, focused on delivering quality results, promoting automation and good practices. High performance in delivering results, responsible for everything and consistent with words and deeds, resistant to the team and the leader formed through experiences. Self-critical result.

Skill Highlights

- Strong decision maker
- Complex problem solver
- Innovative
- Service-focused

Experience

NodeJS Developer – June 2020 – November 2020

Asociación Popular De Ahorros y Préstamos - Santo Domingo

.NET FullStack Developer – February 2019 – June 2020

Dkolor, Santo Domingo

As part of the team I have the responsibility to meet the client's requirements and adapt them. Also migrate the old application for obtaining driver's licenses, and create from scratch the new application for the theoretical exam to obtain the learning card. In my daily work I use C #, ASP.NET MVC, JavaScript, AngularJS, JQuery and Microsoft SQL Server.

.NET FullStack Developer – March 2018 – February 2019

Hipermercados Olé, Santo Domingo

I planned and implemented functions according to the requirements of managers in an agile environment using Scrum and the following technologies: C #, ASP.NET MVC, AngularJS, JavaScript, JQuery and SQL Server.

PHP Developer - January 2018 - March 2018

ATL Software, Santo Domingo

I developed new features in existing web applications using PHP, Adobe Flex and SQL Server.
